

FISCAL NOTE

HR 270

April 18, 2006

SUMMARY OF BILL: Encourages the Governor to increase funding for technology in public education in primary and secondary schools in this state through an earmarked appropriation in the General Appropriations Act for FY06-07.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact – If the intent of this resolution is implemented, increasing state funds to be earmarked for technology in public education would result in a lesser amount of funds reverting to the General Fund to be used for other purposes in FY06-07. Such amount of earmarked appropriations cannot be determined but can reasonably be estimated to exceed \$100,000. If the intent of this resolution is not implemented, then the fiscal impact is considered minimal.

Assumption:

- Increased funding for technology in public education is not included in the Governor's FY06-07 recommended budget.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James W. White, Executive Director
